

Tariff Information

Dear Valued Customer,

we would like to inform you that due to recent changes our suppliers reserve the right to adjust product prices to reflect increased tariffs or additional costs. Trade policies remain fluid, and Heilind reserves the right to pass through tariff charges as we incur them. While we make every effort to communicate changes preemptively, circumstances may evolve quickly. Tariff-related fees are subject to change based on product country of origin, current inventory, and updates from our suppliers. Since March 2025 Heilind started to quote and bill the additional tariffs on all affected products.

In keeping with our commitment to fairness and transparency, Heilind will pass along 85% of the tariff costs we incur from our suppliers.

For example, if we are charged 20%, then we will pass on 17 %.

We appreciate your understanding and cooperation in this matter and thank you for your continued partnership and trust in our company.

We understand that these changes present challenges and we are here to support you. Should you have any questions or require further clarification, please do not hesitate to reach out to your local sales representative.

Yours sincerely,
Heilind Electronics
